

This memo serves as the MHSAA's official notice that the decertification process has been triggered for the Marucci CAT5 33-inch model and the Reebok Vector TLS 33-inch model. **Effective immediately and until further notice, these two bats will not be allowed for use in any MHSAA baseball competition.** These bats no longer comply with NF Baseball rules 4-1-3b and 7-4-1a.

For ease of reference, photos of the bats are below:

These are the only two bats at this time that are illegal that displays the BBCOR stamp and only affect the 33-inch model of each bat.

If you have any questions, please contact the MHSAA.
