Executive Committee Authority and Responsibility – The Executive Committee reviewed its authority under Article VII of the MHSAA Constitution and specifically its responsibility to consider each application for waiver of an eligibility requirement on its individual merits, determining if the regulation serves the purpose for which it was intended in each case or if the regulation works an undue hardship on any student who is the subject of a request for waiver. (These underlying criteria may not be restated for every subject of these minutes.)

The Executive Committee was reminded that it was the responsibility of each member school involved to provide sufficient factual information about the specific request for the Executive Committee to reach a decision without further investigation. If information is incomplete, contradictory or otherwise unclear or has been received too late to be studied completely, the Executive Committee may deny the request for waiver or delay action. Such requests may be resubmitted to the Executive Committee with additional information at a subsequent meeting or appealed to the full Representative Council.

It is possible that some of the information presented as facts to the Executive Committee by school personnel and others may be inaccurate. However, to avoid constant repetition in this report of phrases such as “it was alleged” or “it was reported,” no attempt is made in the introduction of each waiver request to distinguish between truth, allegation, hearsay, opinion, summary or conclusion. If any information provided to the Executive Committee is inaccurate, any decision of the Executive Committee to grant waiver of a regulation shall be null and void.

The Executive Committee is not authorized to approve waiver based on alleged or actual differences between schools based on “environment,” demographics, curriculum or extracurricular offerings. A determination of undue hardship is a matter addressed to the discretion of the Executive Committee within the educational philosophy and secondary role of voluntary extracurricular competitive athletics in the academic environment. The Executive Committee will avoid making exceptions that would create precedent that effectively changes a rule without Representative Council action or local board of education adoption, which would exceed Executive Committee authority. The contract the MHSAA has with member schools obligates the MHSAA to not change rules during the school year.

Students for whom waiver of a particular regulation is approved must be eligible in all other respects under all sections and interpretations of the regulations prior to their participation.

Adoption of these regulations, as well as policies, procedures and schedules of MHSAA tournaments, is a choice schools make locally when they consider their option of MHSAA membership. Consistent with rulings of the Attorney General and Michigan Supreme Court, schools are not bound by the decisions of the Executive Committee, but the association may limit participation in the post-season tournaments it sponsors to those schools which choose to apply rules and penalties as promulgated by the MHSAA and adopted by each member school’s board of education. The MHSAA exercises no independent authority over schools or students.

Rationale for Transfer Regulation – The following rationale for the transfer regulation, first established by the Executive Committee on Aug. 6, 1985 and last reviewed Aug. 10, 2010, was reaffirmed:

- a. The rule tends to insure equality of competition in that each school plays students who have been in that school and established their eligibility in that school.
- b. The rule tends to prevent students from "jumping" from one school to another.
- c. The rule prevents the "bumping" of students who have previously gained eligibility in a school system by persons coming from outside the school system.
- d. The rule tends to prevent interscholastic athletic recruiting.
- e. The rule tends to prevent or discourage dominance of one sport at one school with a successful program, i.e., the concentration of excellent baseball players at one school to the detriment of surrounding schools through transfers and to the detriment of the natural school population and ability mix.
- f. The rule tends to create and maintain stability in that age group, i.e., it promotes team stability and team work expectation fulfillment.
- g. The rule is designed to discourage parents from "school shopping" for athletic purposes.
- h. The rule is consistent with educational philosophy of going to school for academics first and athletics second.
- i. It eliminates family financial status from becoming a factor on eligibility, thus making a uniform rule for all students across the state of Michigan (i.e., tuition and millage considerations).
- j. It tends to encourage competition between nonpublic and public schools, rather than discourage that competition.
- k. It tends to reduce friction or threat of students changing schools because of problems they may have created or because of their misconduct, etc.

In the 10th grade, during the 2008-09 school year, the illness caused the student to be on homebound status, receiving credit for six classes over three trimesters. The student was unable to participate in athletics during this time. For the first trimester of the 11th grade, the student passed two courses and was approved for a waiver of the previous academic credit record regulation by the Executive Committee on Feb. 24, 2010, provided the student passed all three classes in the second trimester. The student participated in girls soccer in the spring of 2009-10 and 2010-11.

The school submitted additional information, specifically that the student was placed on homebound status for nearly the entire 2008-09 school year beginning prior to the fourth Friday after Labor Day (Sept. 19, 2008). The student is currently enrolled in credit recovery and doing passing work in the one class. The date of completion of the course will be Sept. 6, 2011, which follows the start of the football season.

Hart and Hart-Oceana Christian Middle Schools (Regulation III, Section 1[D]) – The Executive Committee approved a cooperative program in boys and girls basketball, boys and girls track & field, girls volleyball and wrestling between these two member schools. Hart sponsored these sports previously and will be the primary school.

Hart, Hart-Oceana Christian and Walkerville Middle Schools (Regulation III, Section 1[D]) – The Executive Committee approved a cooperative program in football between these three member schools. Hart sponsored football previously and will be the primary school.

New Member Schools – Pursuant to the MHSAA Constitution adopted by member schools and according to procedures for MHSAA membership adopted by the Representative Council on March 27, 1997, the Executive Committee approved membership for the following school:

Walker-West Michigan Academy for Environmental Science High School is a charter high school chartered through Central Michigan University and operated by Choice Schools as the sponsoring company. The school is located on 62 acres of undeveloped land and operates K-12 with an approximate total enrollment of 604 students. The school reports its 9-12 enrollment at 163 students and is housed with the middle school in a building built four years ago. Grades K-6 are in portable classrooms. The school has a gymnasium and a small non-regulation soccer field. The school will rent and rely on parks and recreation for some sport facilities. It intends to sponsor boys and girls basketball and girls volleyball in 2011-12 and anticipates participation in the Alliance League. The school may have interest in eight-player football and cooperative programs in the future. The signed 2011-12 MHSAA Membership Resolution was received June 15, 2011. The Athletic Department Code of Conduct and Preliminary Enrollment Declaration were received. If a 2012-13 Membership Resolution is received prior to Sept. 28, 2012, and provided all other rules are complied with, the school will be eligible for MHSAA tournaments for the 2012-13 school year. The middle school is also seeking membership but presently offers no sports.

Committees – The Executive Committee approved with numerous adjustments the appointment of members, as well as meeting dates, for committees which meet prior to Jan. 1, 2012. Committees which meet after Jan. 1, 2012 will be approved at the Nov. 2, 2011 Executive Committee Meeting.

Elections – To conserve resources, the Executive Committee determined that because there are no positions being contested for the Representative Council, no ballots should be sent to schools and the meeting of the Board of Canvassers should be cancelled. As there is only one contested position for the Upper Peninsula Athletic Committee, ballots should only be mailed to schools for that election, and those ballots counted by MHSAA staff. The Executive Committee declares elected all those candidates for uncontested positions on the Representative Council and Upper Peninsula Athletic Committee.

Football – The Executive Committee endorsed the selection of Northern Michigan University’s Superior Dome as the site for the first MHSAA Eight-Player Division Football Final. The game will be played at 7 p.m. EST on Friday, Nov. 18, 2011.

Next Meetings – The next meetings of the Executive Committee are scheduled for Tuesday, Aug. 30, 2011, at 8:30 a.m. in East Lansing; Tuesday, Sept. 13, 2011, at 8:30 a.m. in East Lansing; Monday, Oct. 3, 2011, at 8:30 a.m. in East Lansing; Wednesday, Nov. 2, 2011, at 8:30 a.m. in East Lansing; and Thursday, Dec. 1, 2011, at 1:30 p.m. in East Lansing.
