

## **MDHHS Safer Sports Program - General Information for Wrestling Schools**

### **Enrollment & Ordering Tests:**

Schools must complete this online form to enroll your school in the rapid testing program and provide numbers of participants for ordering tests. These tests will be provided by MDHHS to schools at no charge and distributed through the intermediate school districts. Schools must be adequately trained before they receive tests.

### **Enrollment & Ordering Link:**

<https://forms.office.com/Pages/ResponsePage.aspx?id=h3D71Xc3rUKWaoku9HII0ZGHyz3HKppAuslCATcUVNIUQTFLU1RJREdDODVQWUFRSERORTFINTUzMSQIQCN0PWcu>

Each rapid test box includes the nasal swabs, extraction reagent and test cards.

### **What is needed before our school can test?**

- Completed Code of Conduct and Consent forms for all participants.
- Online enrollment and ordering form completed to secure tests.
- PPE- gloves, medical masks, face shields or safety glasses.
- Paper towels, tissues, hand sanitizer, disinfectant and waste receptacles (medical and non-medical).
- Clock, timer or stopwatches (not personal cell phone).
- Testing personnel must view the training videos below.
- Prepare to report BOTH positive and negative results on the day of testing. Reporting communicable disease is a federal law.
- Prepare to reorder tests weekly. If you do not reorder tests weekly your school will not receive more tests and will not be able to play.

### **Training videos for the personnel that will be conducting your tests:**

<https://www.globalpointofcare.abbott/en/product-details/navica-binaxnow-covid-19-us.html>

### **Attend or view the MDHHS training series:**

**February 10, 2021 (2-3pm):** [Teams Live Event: Introductory Webinar](#)

**February 11, 2021 (11am - 12pm):** [Teams Live Event: BinaxNOW Training](#)

**February 12, 2021 (11am - 12pm):** [Teams Live Event: Reporting and Reordering](#)

Once completed Codes of Conduct & Consent forms have been collected, the training videos have been viewed by your testing personnel and all items above have been secured, you may begin the testing process.

Remember that a negative test is required for all individuals the day before any unmasked competition (testing before a competition can be done with the home weigh-in). Your school's coach must have the weigh-in roster of all eligible individuals with confirmation of negative test results to exchange with opponents. The signature of the school administrator on the home weigh-in form

attests that weights are accurate and correct along with confirmation that all eligible wrestlers have completed a negative rapid antigen test.

Masks must be worn for all practice sessions. If your school wishes to practice without masks, your school would be required to test all participants in the 24 hours before each unmasked practice.

### **The Tests:**

1. Any individual exhibiting COVID-19 symptoms may not be tested and may not weigh-in. Those individuals must be referred to their medical provider for a PCR COVID-19 test.
2. Individuals should be scheduled and the workflow organized ensuring social distancing can be maintained at all times before, during and after the test. Face masks must be worn at all times except when providing the nasal swab sample for the test.
3. Testing of all individuals must take place the day before unmasked competition (done with the home weigh-in).
4. See the training videos for testing procedures and protocols.

### **Testing Scenarios:**

- If the rapid test is negative, that individual may compete, and would continue with the testing and competition protocols in the days ahead. Note that all close contact and contact tracing procedures must be followed as directed by your local health department (LHD).
- If the rapid test is positive, that individual is sent home ASAP and must follow up the PCR COVID-19 test working through their medical provider. If the PCR test comes back negative, the individual is allowed to participate. If the PCR test comes back positive, that individual cannot participate and close contacts of that person would need to quarantine based on LHD guidance.
- If someone is a close contact of a positive test, that individual cannot participate and is sent home ASAP. Further guidance will be provided by the LHD.
- According to the updated CDC definition, a close contact is someone who spends 15 minutes or more within six feet of a person with COVID-19 over a period of 24 hours.
- If the participant has recovered from COVID-19 within the last 90 days (with a confirmed diagnostic test), they can produce a doctor's note and will be exempt from rapid testing. An antibody test result is insufficient. Other requirements, such as wearing a mask when required, still apply. Participants who have had COVID-19 more than 90 days ago must still be rapid tested.
- For all participants, if they display COVID-19 symptoms, they must not attend practice or a competition, and must stay home and self-isolate until their symptoms resolve.

### **Result Reporting Portal (must be done on each day of testing, by federal law):**

1. Report BOTH positive and negative test results here:

[https://newmibridges.michigan.gov/s/isd-antigen-testing-results?language=en\\_US](https://newmibridges.michigan.gov/s/isd-antigen-testing-results?language=en_US)

2. Reorder additional tests from MDHHS.
