NOCSAE Issues Warning About Counterfeit Lacrosse Balls

OVERLAND PARK, Kan. (March 6, 2019) – The National Operating Committee on Standards for Athletic Equipment (NOCSAE) is warning lacrosse players, coaches and teams to use caution when purchasing lacrosse balls online.

NOCSAE is taking aggressive steps to stop the sale of counterfeit lacrosse balls by multiple illegitimate vendors, primarily on the Internet. In recent months, NOCSAE has worked with Amazon, GoDaddy and other online shopping platforms to shut down vendors selling lacrosse balls that have not been certified to the NOCSAE standard.

“Without proper testing and certification to the NOCSAE standard, these counterfeit lacrosse balls could pose safety risks for players,” said NOCSAE Executive Director Mike Oliver. “Consumers should also be aware that many of the counterfeit lacrosse balls appear to have the proper NOCSAE and Safety Equipment Institute (SEI) logos, but the vendors in question are not registered licensees and the balls fail to meet the NOCSAE standard.”

Consumers should not rely solely on the presence of on-ball marking to assess whether lacrosse balls meet the NOCSAE standard. To ensure these products have been certified to the NOCSAE standard, NOCSAE recommends checking the name of the manufacturer and the ball model against the certified product list available on the Safety Equipment Institute (SEI) website (www.seinet.org).

US Lacrosse, the National Collegiate Athletic Association (NCAA) and the National Federation of State High School Associations (NFHS) require that all balls used in lacrosse games meet the NOCSAE standard to help protect players from potential safety risks. In addition, all three governing bodies strongly encourage the use of balls that meet the NOCSAE standard for all practice games. The NOCSAE standard for newly manufactured lacrosse balls includes specifications and performance requirements related to weight, density, size and other quality controls.

NOCSAE will continue to provide updates on this issue as new information becomes available. More information on all NOCSAE standards is available at www.nocsa.org.

About NOCSAE

NOCSAE, the National Operating Committee on Standards for Athletic Equipment, is an independent and nonprofit standards development body with the mission to enhance athletic safety through scientific research and the creation of performance standards for athletic equipment. Formed in 1970, NOCSAE is a leading force in the effort to improve athletic equipment and, as a result, reduce injuries. NOCSAE efforts include the development of performance and test standards for football helmets, gloves and facemasks, baseball and softball batter’s and catcher’s helmets, baseballs and softballs, ice hockey helmets, soccer shin guards, lacrosse helmets and facemasks, and polo helmets. NOCSAE is comprised of a board of directors representing stakeholders from a number of groups – including consumer and end users, equipment manufacturers and reconditioners, athletic trainers, coaches, equipment managers, and academic and sports medicine associations. These diverse interests have joined forces in an attempt to arrive at a common goal of reducing sports-related injuries. NOCSAE is a nonprofit, charitable organization supported by individuals and organizations with an interest in athletics. For more information, please visit www.nocsa.org.
