New Markings: Below Goal Circles (Dots)

Two small circles (dots) 5-6 inches in diameter must be added to the field behind each goal. The circles should mirror each other, 5 yards from the marks on the goal line extended. They shall be marked in the direction towards the end line and measured in a line perpendicular to the goal line extended. It is recommended that they be painted white or a single contrasting color. They may be marked in a temporary substance – i.e. spray paint, chalk, etc.
