## Scratches & Relay Substitutions – please read carefully

- Scratch Window - We will utilize the Scratch Window on athletic.net once the initial entry deadline has passed. **We encourage you to use this method for making scratches**, rather than paper scratches. We will have a master scratch sheet available, if you prefer to use that.
- By the designated scratch deadline, you must have scratched down to two athletes per event UNLESS all have met the AQ standard. All athletes who have met the AQ standard may compete, you need not scratch them. But all athletes must have met the AQ standard if more than two are participating.
- Once the scratch deadline has passed, all non-scratched events are counted in the athlete participation limit whether or not the athlete participates. In other words, the event counts for that athlete even if you later scratch that athlete from an event, post scratch deadline.
- Relay substitutions can occur at any time BEFORE the event is run by using any athlete on your eligibility list with a remaining event. If an athlete is already in four events after the scratch deadline, they could not later scratch an individual event to be entered on a relay. But if they still have a remaining event, they may be substituted. Failure to actually notify the meet manager or timer of the substitution before the event is run is basis to disqualify the relay. So be sure to make the substitution.

## Athlete Check-in

- Athletes will check-in with the clerks located in the chute at the northwest corner of the stadium.
- Call system: 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> (last) call will be used. All athletes must check in by 2<sup>nd</sup> call.
- Athletes that do not check in by 2<sup>nd</sup> call for an event, will be scratched from the event.

## Starting Blocks

- Gill Fusion F10 Blocks will be used. There are enough spikes in these blocks that they do not move. We will not allow athletes to stand on these blocks.
- Non-traditional blocks must be approved by the referee/starter, prior to the event.

## Warm-up Area

- Athletes may use the roped off area of the soccer field as a warm-up area.
- Warm-ups are not permitted on the infield or track during the meet.
- Please do not bring footballs, frisbees, etc to throw in the warmup area.

## Restricted Areas

- Field event coaches will be allowed to coach from designated boxes in each event area.
- Coaches will be provided with a Field Pass wristband, so that they may enter the infield of the track. Coaches are to stay inside of the designated coaching areas. The purpose of coaches being allowed on the infield is to coach athletes in their current event.
- Coaches, please help us with this. Athletes are not allowed on the infield. Athletes competing in upcoming races will check in at the north end of the track, and be held in the chute until the start of the event.
- Athletes refusing to move from a restricted area is grounds for disqualification of the athlete and/or the current event.
